

Data Centre Services

**Lunar Digital are
Data Centre experts.**
An independent
provider of highly
secure, resilient
and carrier neutral
colocation space.

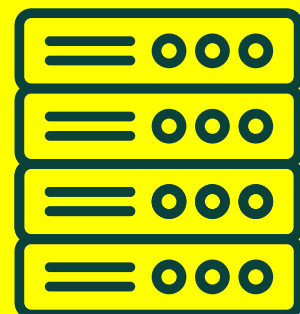

Our Experience

As a leading provider of data centre solutions with over 50+ years of collective experience within the leadership team, Lunar Digital can support your evolving data centre strategy. Whether you are a solutions provider who requires colocation space to deliver managed services to your clients, you have an existing colocation environment you'd like to migrate, or you need to retain critical infrastructure outside of the cloud, we will deliver a solution tailored to you.

With data centre capabilities nationally across the UK and strategic locations situated overseas, we are strongly placed to support geographically sensitive requirements that ensure redundancy and resilience from the outset.

Colocation

Colocation is when you house your critical IT equipment in a highly secure and resilient data centre – a purpose-built facility specifically designed to protect your critical infrastructure at all times.

With a global footprint of high capacity data centres, Lunar Digital can provide colocation at professionally run, highly reliable and energy efficient sites...

Intelligent Hands

Our superb team of highly skilled data centre technicians are always on hand 24x7 to assist you with a wide range of requests.

From server reboots, to cabling and diagnosing issues, we will act as an extension of your own IT team.

When you collocate with Lunar Digital, we understand that you are entrusting us with the infrastructure that runs your business so we will always offer a responsive, personable and reliable service with our intelligent hands support...

24x7
assistance

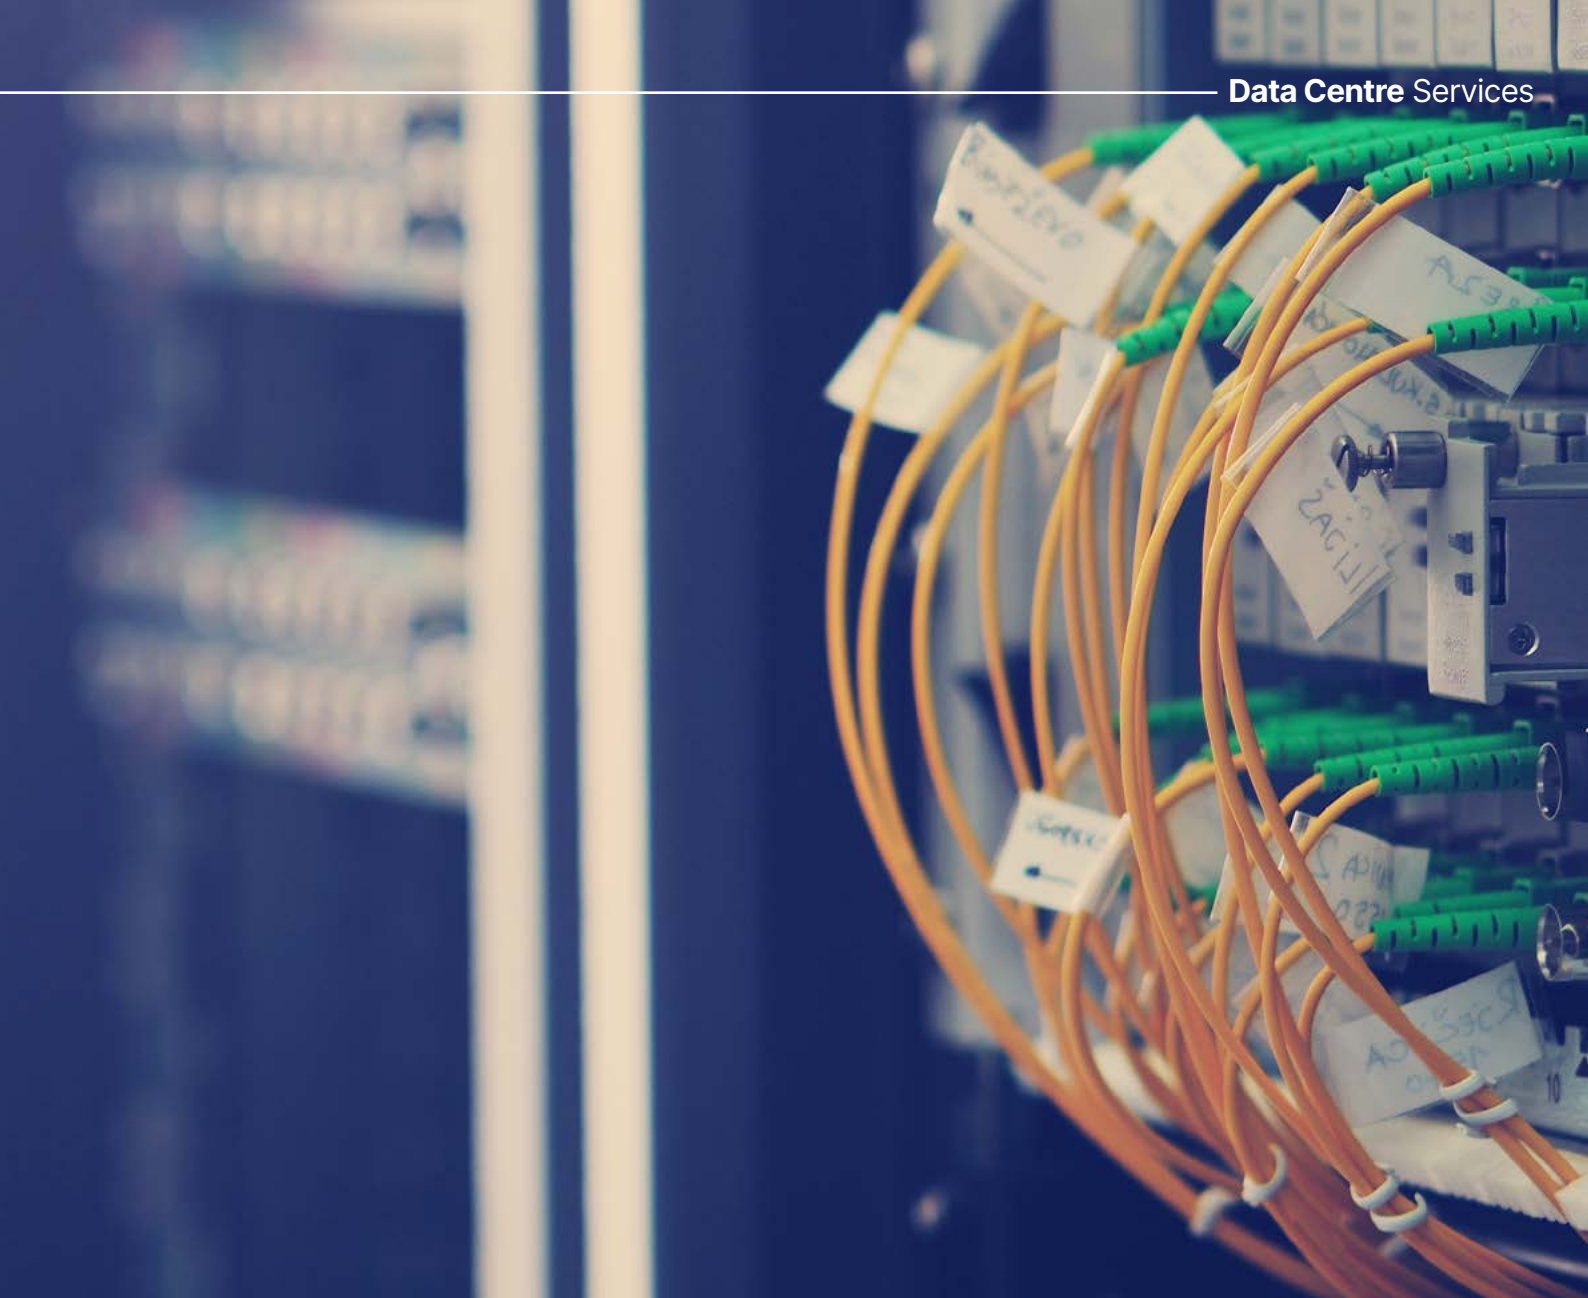

Data Centre Consulting

Do you need assisting in selecting a data centre within the Lunar portfolio that meets all your requirements for power density, resilience, security, connectivity and client amenities?

As a trusted partner, we support our clients to navigate the challenging aspects of project planning and delivery of their hosted IT infrastructure into a data centre...we are there for you when you need us most.

Structured Cabling

Lunar Digital can assist with all kinds of dedicated structured cabling between your racks in our facilities.

Whether you need us to organise the whole requirement or just procure the necessary materials for your team to install.

Simply tell us about your requirement and we'll do the rest.
